

8000 Series Custom Consoles

Universal Control
Module

Custom Consoles are individually built by hand and may deploy a variety of functional attributes for control and monitoring, which the customer may select from a fixed menu of options provided by DynaLock.

DynaLock has developed a universal control module which serves as the basic architecture all Consoles are built-upon. It satisfies the majority of applications, keeps initial cost to a minimum and facilitates service.

Consult the factory for specific pricing, delivery lead time and performance specifications on Custom Consoles.

Please refer to page 49 - "8000 Series Quotation Questionnaire" before contacting Sales for a price quotation.

8005CSF
